

CITY OF LODI COUNCIL COMMUNICATION

IM

AGENDA TITLE: Adopt Resolution Approving Plans and Specifications, Authorizing Advertisement for Bids for Pine Street Overlay Project – Ham Lane to Church Street, Authorizing City Manager to Award or Reject the Contract, and Appropriating Funds (\$260,000)

MEETING DATE: February 16, 2005

PREPARED BY Public Works Director

RECOMMENDED ACTION: That the City Council adopt a resolution approving plans and specifications for the above project, authorizing advertisement for bids, authorizing the City Manager to award or reject the contract up to \$260,000 and appropriating funds.

BACKGROUND INFORMATION: This project includes installing a 0.15-foot thick asphalt pavement overlay on Pine Street between Ham Lane and Church Street. The work includes approximately 2,000 tons of asphalt concrete and 15,700 square yards of pavement reinforcement fabric, pavement grinding, pavement striping, and other incidental and related work, all as shown on the plans and specifications for the above project.

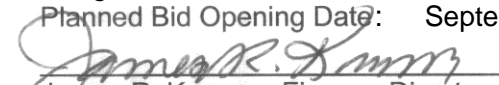

In anticipation of the paving project, City Street crews performed base failure repairs in 2004 along the alignment to stabilize portions of the existing pavement that were determined to be in too poor of condition to overlay. Additionally, the department is completing installation of wheelchair ramp modifications and upgrades along the corridor.

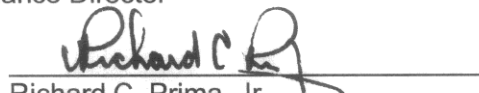

During paving operations, the plans and specifications allow the contractor to close Pine Street for ~~two~~ days within the project limits – one day to pave between Ham Lane and Hutchins Street and one day to pave between Hutchins Street and Church Street.

Closing the work area to traffic will expedite the paving process and provide a better overall paving job. Temporary access to homes and businesses along the corridor, as well as to City Hall and the Finance Department, will be from the side streets during the closure period,

Notifications to the public will be mailed to property owners adjacent to the project limits and advertised in the *Lodi News Sentinel* prior to the planned closure date.

FUNDING: Measure K Maintenance
Project Estimate: Less than \$260,000
Budgeted: CIB **E-59**
Planned Bid Opening Date: September 1, 2005
